

70 Years with Coughs

We have had seventy years of experience with Ayer's Cherry Pectoral. This makes us have great confidence in it for coughs, colds, bronchitis, weak throats, and weak lungs. We want you to have confidence in it as well. Ask your own doctor what experience he has had with it. He knows. Keep in close touch with him.

One of Ayer's Pills at bedtime will cause an increased flow of bile and produce a gentle laxative effect the day following. Formula on each box. Show it to your doctor. He will understand at a glance. Dose, one pill at bedtime, just one.

Made by the J. C. AYER CO., Lowell, Mass.

Mrs. Nannie C. Steele and son, Corder, went to Kansas City Monday morning for a few days' visit with relatives.

Dr. and Mrs. J. E. Tucker returned from Kansas City Monday morning, where they have been spending a few days.

Yes, We Do Love Work.

Don't forget us, we are in town and we want to make you side walks. We make the best and treat you white. Other come and make big talk then go. We stay. WORK, and deliver the goods.

JOHN I. ASHURST.

Office Phone 437. Res. Phone 325.

LOCAL BRIEFS

Judge and Mrs. James Quarles of Louisville, Kentucky, are the guests of Judge and Mrs. Richard Field.

Reid Kincaid went to Independence Saturday on business.

Deputy Sheriff Arthur Klapp went to Bates City Saturday on official business.

J. C. McGrew, Jr., went to Sedalia Friday on business.

Miss Mary Hornbuckle came down from Kansas City Friday night to visit Miss Theodora Morris.

Mrs. Rees Turpin arrived from Kansas City Friday to visit Mr. and Mrs. Richard Field.

The Demons of the Swamp

are mosquitos. As they sting they put deadly malaria germs in the blood. Then follow the icy chills and the fires of fever. The appetite flies and the strength fails; also malaria often paves the way for deadly typhoid. But Electric Bitters kill and cast out the malaria germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote Wm. Fretwell of Lucama, N. C. "three bottles drove all the malaria from my system, and I've had good health ever since." Best for all stomach, liver and kidney ills. 50c at Crenshaw & Young.

Mr. and Mrs. R. B. Baird arrived from Muskogee, Oklahoma, Saturday to visit Mrs. Sallie D. Russell.

Miss Mollie Limberg returned to Wellington Saturday after a few days' visit with friends.

Escapes an Awful Fate.

A thousand tongues could not express the gratitude of Mrs. J. E. Cox of Joliet, Ill., for her wonderful deliverance from an awful fate. "Typhoid pneumonia had left me with a dreadful cough," she writes. "Sometimes I had such awful coughing spells I thought I would die. I could get no help from doctor's treatment or other medicines till I used Dr. King's New Discovery. But I owe my life to this wonderful remedy for I scarcely cough at all now." Quick and safe, its the most reliable of all throat and lung medicines. Every bottle guaranteed. 50c. and \$1.00. Trial bottle free at Crenshaw & Young.

John I. Ashurst went to Kansas City Saturday to spend the day on business.

Z. W. Wright went to Napoleon Saturday to spend the day.

This is a good time of year to order CALENDERS. The samples are right here in your home town. Merely call us up and say when it will be convenient for you to look over the samples, and we will be "Johnny on the spot." Phone No. 7.

SAVE ALL YOUR CHICKS

SAVE-ALL TABLETS positively guaranteed to save 75 per cent. of all chicks hatched. White diarrhoea and Bowel troubles banished. Results over night. Send name and get liberal sample free by return mail. Try for yourself at our expense. Save-All Remedy Co., Desk 2, Lee's Summit, Mo.

GRASS AS FACTOR IN LIFE. PROVES ANT HAS MEMORY

Comes Next in Importance to Water, Light and Air as Benefactor of Race.

Next in importance to the divine profusion of water, light and air, those three great physical facts which render existence possible, may be reckoned the universal beneficence of grass. Exaggerated by tropical heats and vapors to the gigantic cane congested with its saccharine secretion, or dwarfed by polar rigors to the fibrous hair of northern solitudes, embracing between these extremes the maize with its resolute pennons, the rice plant of southern swamps, the wheat, rye, barley, oats and other cereals, no less than the humbler verdure of the hillside, pasture and prairie in the temperate zone, grass is the most widely distributed of all vegetable beings, and it is at once the type of our life and the emblem of our mortality. Lying in the sunshine among the buttercups and dandelions of May, scarcely higher in intelligence than the minute tenants of that mimic wilderness, our earliest recollections are of grass; and when the fitful wrangle of the market and forum is closed grass heals over the scar which our descent into the bosom of the earth has made and the carpet of the infant becomes the blanket of the dead.—From the Writings of John J. Ingalls.

"LABBY" HAD HIS TROUBLES

What the Intelligent Composer Did to One of Great London Editor's Effusions.

The following reprints from Labouchere's Truth are valuable as indicating that the composer's troubles are not of recent origin.

A new beauty has appeared upon the horizon of London. She is from the Channel islands and is the daughter of the Dean of St. Helier's. Mr. Millais was the troubadour who first told nations that she was beautiful by offering to paint her portrait. Society has gone mad over her. The other day at a party she was positively mobbed and more than one duchess climbed upon a chair to gaze upon her. Since the advent of this beautiful heiress all former social lions waste their dewdrops on the desert air and vainly roar; no one pays more attention to them than if they were common puppy dogs.—(May 24, 1877.)

In a paragraph last week respecting the rise of a new beauty on the London firmament the word "heirless" was by a printer's error substituted for "lionesa." The lady in question is not an heiress. She is married to Mr. Langtry, a well known yachting man.—(May 31, 1877.)

CHINA TEA.

Some interesting statistics have been gathered with reference to the great decline in China's tea trade. From 1878, when tea was first introduced into England, until 1837 China held exclusively the tea trade of the world. Then India began to enter the tea market. The Chinese tea trade reached high tide in 1886 with a total export of 300,000,000 pounds. In 1884 China furnished about 72 per cent. of the world's total, India and Ceylon 18 per cent., and Japan and Formosa 10 per cent. But at last accounts, when the total consumption had increased to 644,000,000 pounds, China contributed only 30 per cent., India and Ceylon 60 per cent., Japan and Formosa 10 per cent.

The decline in China tea is ascribed to careless methods of cultivation and preparation of the leaf.—Harper's Weekly.

DAYLIGHT A TREAT TO PONIES.

The pit ponies of one of the English mines were brought to the surface when the miners stopped work some weeks ago. None of the animals had seen daylight since they were first taken into the mines, some as long as twenty years ago. All of them were bewildered, and many were as frightened as though they had been deposited on a new planet, but there were some which showed signs of joy, neighing and rolling over and over on the ground.

PASS ON.

"I am seeking local color for an opera," announced the traveler. "Have you any merry villagers in this hamlet?"

"Not in this village," replied the innkeeper, for it was he. "All we have here is a bunch of disgruntled taxpayers."

Scientist Makes Series of Experiments Showing How Insects Reason Things Out.

Experiments are continually being made to test the memory of animals, such as the elephant, the dog, the bull; but it would seem a thankless undertaking to ascertain whether the ant has a memory. Nevertheless, a scientist in South America thinks he has succeeded. Isolating two of the largest specimens of tropical ants he could find, he so arranged their receptacle that they could get no food without climbing over a circular slant into another compartment. Over this slant, when the food was not there, he placed a crimson cord and the ants very soon learned to interpret the signal and never attempted to climb over it. Thinking, after a time, that there might be something in the color which repelled them automatically, as the bull is affected unpleasantly by red, he replaced the red cord by cords of varying colors, always with the same result after the ants had made a few excursions over the slant and come back hungry. Then he tried plain cloth and even paper, but the result was invariably the same. After a number of trials the ants refused to climb the slant when there was any sort of "signal." Finally the scientist reversed the signal, having food beyond the slant only when it was visible; and after an infinite number of trials the ants accommodated themselves to the change.

IN PUMPKIN TIME

Mr. Bug (house hunting)—That's about the size cottage I want, but I must say I don't just like the looks of it.

EXCHANGE OF COURTESIES.

When J. W. Mitchell was the Russian correspondent of the Associated Press the head of the German branch of the house of Rothschild visited St. Petersburg, and it became Mitchell's business to find out what had brought the great financier to that city. Mitchell, who is famous for his brilliant brain and his dull-looking clothes, found and interviewed Rothschild.

At the close of the talk, the money king, thinking that Mitchell was a poor fellow on the verge of starvation, fished out of his vest pocket a sovereign, and, with a patronizing air, handed it to him.

Whereupon the newspaper writer, producing a \$5 gold piece, extended it to Rothschild, and said, in a bored manner: "Have one of mine."—Popular Magazine.

CAUSE OF DEATH.

"Ned" Voveny of the Fifth Ward Democratic club, Somerville, was in the finely appointed rooms of that body in Gilman square the other night telling all about Bill Somebody-or-other's death. It went thus:

Bill had been quite a rounder and had died hard. After they were certain that the breath had left his body Mrs. Bill summoned the undertaker. She selected a modest casket for Bill had not been over-provident. Then the undertaker asked:

"What kind of trimmings shall we give him?"

"None, if I know it," was her terse rejoinder. "That's what he died of."—Boston Traveler.

UNFEELING.

Miss Uglygirl—I'm dreadfully frightened. A dog bit me and the minute after they got it off me, it had a fit.

Mr. Downrig Downrite—Don't worry, ma'am. If they take the poor animal to a good veterinarian, he'll pull it through.

SUSPICION.

"Mrs. Highflyer has a most winning personality."

"Have you been playing bridge with her, too?"

Colorado!

Your Rocky Mountain Trout

is the gamest, wildest thoroughbred that ever a fly deceived. He's always hungry. He lives in a country of prodigious appetites and tremendous vitality.

By the way, how is your appetite and where is your energy these sticky, muggy, man-killing days? A little off feed, eh? No ambition? Brain foggy? If you will stick to your grind throughout the year you can't expect to keep your edge. You're ground down. Better go to Colorado and hone up. A month in the great hills will quicken your pulse, harden your meat and clear your brain. The fares are surprisingly low.

Any way of going to Colorado is a good way because it gets you to Colorado. But the best service is that of the de luxe trains of the

Rock Island Lines

—every day to Denver, Colorado Springs and Pueblo—

"The Rocky Mountain Limited" daily from Chicago and Omaha and "The Colorado Flyer" daily from St. Louis and Kansas City, are electric lighted one night trains which supply the things you'll expect to find and some comforting details of perfect service you'll not expect.

Take the Rock Island Lines from the Nearest Point

These and other fast daily trains make the journey to Colorado, Yellowstone Park and the Pacific Coast a vacation in itself. Let me send you our booklets "Under the Turquoise Sky" and "Little Journeys in Colorado" and tell you how inexpensively you can make the trip.
